# EXECUTIVE SUMMARY

---

- **Top 10 Programming Language Trends**
- **Top 10 Database Trends**
- **Demographics Survey**
- **Overall Findings**

# INTRODUCTION

---

- **Problem:**
  - In the fast-changing world of technology, many technologies such as languages and database are present to meet the needs of various applications. Of the many, it is imperative to identify technologies that are in greater demand.
- **Purpose:**
  - Understand current and future technological demand
- **Objective:**
  - Identify current and future programming language trends
  - Identify current and future database trends
- **Target Audience:**
  - Data Analytics and Software Development Team

# METHODOLOGY

---

- **Data Collection**

- API (JSON)

# PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- Top 5 languages similar this and next year.
- JavaScript and HTML/CSS within the top 5 for this and next year.
- PowerShell and PHP replaced by Rust and Go

## Implications

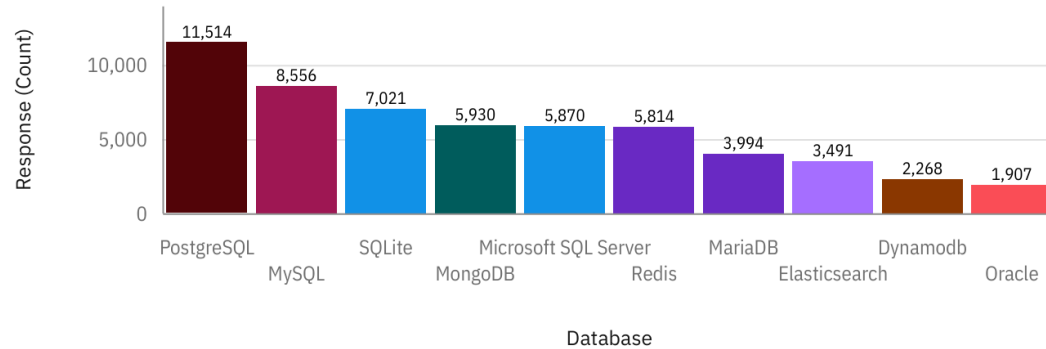

- No major changes in language requirements
- Web development languages still in demand
- Software programming languages becoming more in demand

# DATABASE TRENDS

# DATABASE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- PostgreSQL much more in demand this and next year
- SQL based databases within top 6 for both years
- Oracle not in top 10 for next year

## Implications

- Open-source relational database in demand
- High demand for SQL language
- Oracle database less in demand

# DISCUSSION

---

# OVERALL FINDINGS & IMPLICATIONS

---

## Findings

- Technological trends this and next year similar with little changes to top 10.
- JavaScript and SQL based technologies in demand
- Demographics mostly from USA.

## Implications

- Little year-on-year variation in technological demand.
- Greater demand for web development and database management.
- Trends identified may be skewed to needs in USA only.

# CONCLUSION

---

- Demand for web development using JavaScript
- Demand for database management using SQL
- Little year-on-year variation in technological demand
